Seagull
Technology

(A Subsidiary of Seagull Marine)

www.seagullgroup.com.sg

Seagull Technology is a division of the Seagull Group which was established in 2003. Having gone from strength to strength ever since, the Seagull Group offers the offshore and marine industry a wide range of services including machining of oil field parts, fabrication of sophisticated offshore structures, anchorage ship repairs, hydraulic and mechanical works.

VISION

To be a one-stop CNC Machining service provider to the offshore, marine, Oil & Gas sector offering total solution to our clients through safety, quality and on time delivery.

MISSION

- Our Roadmap starts with our mission, which is enduring. It declares our purpose as a company and serves as the standard against which we weigh our actions and decisions.
- We pledge to offer the highest quality of product, the greatest level of expertise, and tireless dedication to the Customers

CORE VALUES

A commitment to sustainability and to act in an environmentally friendly way.

EQUIPMENT & FACILITIES OVERVIEW:

- **CNC Vertical and Horizontal double column 5-Face Machining centre with CNC indexing rotary table 4000mm x 2200mm x 1100mm.**
- **Heavy duty CNC Vertical turret lathe 2500 x 1600mm.**
- **Heavy duty Vertical machining center 1400 x 700 mm.**
- **Heavy duty flat bed CNC turning center 1000 x 6200 mm.**
- **Heavy duty flat bed CNC turning center 1800 x 1500 mm.**
- **Heavy duty CNC turning center 500 x 1000 mm.**
- **Flat bed CNC flame cutting machine (up to 300mm thickness).**
- **Full range of measuring tools and equipment to facilitate quality verifications.**
